

To the Southern Division Partners,

I am looking forward to working with you this year. Please familiarize yourself with the duties of your office as listed in the revised Handbook edition and be prepared to carry them out during the year. As you see, I am back in this position again as a recycle Past Southern Division Demi Chapeau. As you know I love music and one of my favorite groups is the O'Jays so our theme this year for the Southern Division is "Love Train Get on Board for our Special Children" using National Chapeau Lisa theme "the Wishing Express Train" to depict the fun and fellowship within our organization and our never-ending goal to assist our children. I want each of Southern Division to have successful year to ensure that we reach our goals for our special children and our organization. At the end of the year, I will present a special gift to the departmental that has the best all-round reporting from their Departmental Chapeau. This means it must come the Chapeau. I am hope this will get on Board this "Love Train for our Partnership and Our Special Children. If you have any questions or need help, please call or email me anytime.

"Let's Get on Board the Love Train for Our Special Children"
