

HAT BOX
Terri Angell
For 2024~2025

Communication.... That is what the hatbox is all about.

Often times we are so busy doing what we do, that we forget to tell others. Brag about yourself if you will —and give others ideas on things they can do.

This year the Hat Box went out three times. The first one went out in November, the 2nd one in February and the third one in May. It was such a joy to get all of the information from those partners/chairman that sent things into me. Ya all have such great ideas and ways to connect to the community as well as ways to help our special children, and nurses.

I will be doing it again this coming year—whoop whoop—now that I know what I am doing... (well at least got my toes wet) and I would like to get articles for the November issue by November 15th. The February issue by Feb 15th and the May issue by May 15th. Please know that I will put in as many articles as I have room for, and everyone likes a good picture. Please send them to me in word format if at all possible. I don't like to change your articles, but sometime I need to add a comma here or there.

Don't be shy—people want to hear what you are doing. Be a **blessing** to others letting them know what you are doing—ya never know what that will spark.

Sent your articles to terter59@gmail.com
