

Southern Division, are you ready to board the Wish Express Partnership Train?

All aboard! As we begin our journey together aboard the Wish Express, I am honored to serve as Southern Division Partnership Chairman and excited to welcome you to a year filled with purpose, connection, and hope.

Our National theme, "All Aboard for Our Special Children, Every Mile Matters" reminds us that every Partner has an important place on this train. Each friendship we build, connection we strengthen, and collaboration we encourage helps move the Eight and Forty forward and brings hope to our Special Children.

The Partnership Committee serves as a vital link between Partners, Salons, and programs. Together, we can welcome new passengers, reconnect with longtime Partners, share ideas across Salons, and ensure no one feels left behind at the station. When we work side by side, our combined efforts help the "Wish Express" reach its most important destination: making wishes come true for our Special Children.

The Wish Express Partnership Challenge

1. Welcome one new Partner aboard by inviting someone to attend a meeting, service activity, or special event.
2. Reconnect with one Partner who has not participated recently and personally invite her back aboard.
3. Build one new connection by partnering with community organizations, or support with an activity benefiting our Special Children.

Let us see how many new passengers and renewed connections we can bring aboard the Wish Express. Please include me in updates throughout the year so we can celebrate each milestone along the route.

Every Partner is an essential member of our crew. Every act of service adds fuel to our engine. Every new relationship helps carry hope farther. Together, we will keep the Wish Express moving toward a brighter future for our Special Children.

Pack your enthusiasm, bring your ideas, and get ready for a meaningful journey. Our tickets are punched, the whistle is sounding, and the Wish Express is ready to roll!
