Happy Spring! Happy St. Patrick's Day

March is here, and it's time to "Ring" those bells for National Jewish Health donations. The deadline for donations to National is March 31st for credit this year. Donations for my project – the All Partners Project – still have a ways to go to reach the \$8,000 goal. Since we are not having Chapeau Days, perhaps each partner could give a little extra for donations to NJH. What fundraisers have your Departmentaux participated in this year? There is still time, and the need is great.

Deadlines for ALCWF and Nurses Scholarship are May 31st. Please consider donations to these projects if you haven't already. We really want to reach our goal and help nurses with 10 scholarships this year.

Partnership – the ongoing challenge of our organization. Who have you asked to join 8/40 this year? I've heard Auxiliary members say, "What is 8/40" and "No one has asked me to join." This is a great place to start. Just ASK!! We reached our 75% goal with 1912 partners. Five Departementaux have already reached their 90% goal. Many Departementaux are close to reaching the 90% goal. We are 624 partners short of our goal of 2536. We really need 3000 partners to keep going. Let's' make it happen. If you have partners who have not renewed, give them a call. Let them know you miss them --- and that our special children need their help in hopes of finding a cure.

Now is the time to make plans to attend National Marche in September. Room reservation information was in the last Hat Box. Sandra also attached it to her last "Reports" email. All other information will be out soon and in the May Hat Box.

Also, officers and chairmen, I would like to see a Bulletin from everyone this month. This year is going fast, and our partners need encouragement to keep working for our special children.
